

Your comprehensive resource guide for Safer Internet Day 2021

February 2021

ICT Company of the Year BETT Award Finalists

Introduction

Because our mission is to **create ICT confidence in schools**, a crucial part of this outcome is the safety of our children and young people when learning (and living) online.

This could be at home or at school but it is essential that:

- a) they have the tools and solutions to learn the skills needed and**
- b) we teach them how to use said tools and solutions - and safely**

With Safer Internet Day just around the corner, Dataspire is helping schools to do just that by providing this comprehensive guide for online safety resources, hints and tips.

As well as saving you time, this collection of online safety resources will help you to teach pupils, students and even your own children and relatives how to stay safe online.

Resources by Age Group

Ages 3 - 7

[Safer Internet Day Resource Pack for 3-7 year olds](#) (Zip file download)

Designed specifically for Safer Internet Day, these resources will support educators in delivering messages about the campaign theme of **reliability online**. The resources include a guide to using the pack, a lesson plan and accompanying slides, an assembly and accompanying slides, a poster and lots more. [Bonus Resource for Remote Learning](#)

[Find the Fake](#)

Can you find the fake online? Select an age-appropriate quiz to play as a group (adults versus children) to learn and test your knowledge on what fake news, disinformation and misinformation is and how to stop it from spreading.

[Jessie and Friends](#) - This series of three animations aims to give 4-7 year olds knowledge, skills and confidence to help them respond safely to risks they may encounter online.

[Undressed](#) – Being coerced or tricked into revealing themselves online is not exclusive to teenagers and so these resources help to open the conversation with younger children, and why. (includes a video, colouring pages, posters and worksheets)

[Smartie the Penguin](#) - follow the adventures of Smartie and Daddy Penguin as Smartie learns how to be safe on the internet.

Ages 7 – 11

[Safer Internet Day Resource Pack for 7-11 year olds](#) (Zip file download)

Designed specifically for Safer Internet Day, these resources will support educators in delivering messages about the campaign theme of **reliability online**. The resources include a guide to using the pack, a lesson plan and accompanying slides, an assembly and accompanying slides, a poster and lots more. [Bonus resource for remote learning](#)

[Find the Fake](#)

Select an age-appropriate quiz to play as a group (adults versus children) to learn and test your knowledge on what fake news, disinformation and misinformation is and how to stop it from spreading.

[Smart with a heart](#)

Six easy-to-follow videos to work through that include fun activities, games and discussion points.

[Own It Keyboard and App](#)

Own It is the digital wellbeing app that helps young people to make smart choices, feel more confident, and live their best life online.

[Knowing your rights online for 7 – 11 year olds \(Zip file download\)](#)

The Children's Commissioner for England, working with Tes and Schillings, have produced three teaching packs to help young people become more empowered digital citizens.

[Band Runner](#)

Band Runner is the game for 8-10 year olds which sees children collect points and answer questions about staying safe online.

[Tips for staying safe online while gaming](#)

Age 11- 14

[Safer Internet Day Resource Pack for 11 - 14 year olds \(Zip file download\)](#)

Designed specifically for Safer Internet Day, these resources will support educators in delivering messages about the campaign theme of **reliability online**. The resources include a guide to using the pack, a lesson plan and accompanying slides, an assembly and accompanying slides, a poster and lots more. [Bonus resource for remote learning](#)

[Knowing your rights online for 11-14 year olds \(Zip file download\)](#)

The Children's Commissioner for England, working with Tes and Schillings, have produced three teaching packs to help young people become more empowered digital citizens.

[Find the Fake](#)

Select an age-appropriate quiz to play as a group (adults versus children) to learn and test your knowledge on what fake news, disinformation and misinformation is and how to stop it from spreading.

[Making the Internet a Better Place](#)

TikTok Superstars Charli and Dixie D'Amelio open up about their experience of being bullied and share tips on how to make the internet a better place.

Age 14 +

[Safer Internet Day Resource Pack for 14+ year olds \(Zip file download\)](#)

Designed specifically for Safer Internet Day, these resources will support educators in delivering messages about the campaign theme of **reliability online**. The resources include a guide to using the pack, a lesson plan and accompanying slides, an assembly and accompanying slides, a poster and lots more. [Bonus resource for remote learning](#)

[Find the Fake](#)

Select an age-appropriate quiz to play as a group (adults versus children) to learn and test your knowledge on what fake news, disinformation and misinformation is and how to stop it from spreading.

[Knowing your rights online for 14+ year olds \(Zip file download\)](#)

The Children's Commissioner for England, working with Tes and Schillings, have produced three teaching packs to help young people become more empowered digital citizens.

[Safety Cards](#)

These are printable, one-page safety cards for staying safe on the most popular platforms, including TikTok, House Party, Twitch and Wink.

[Spot the Troll](#)

The quiz where you can examine images of real social media content and decide whether it's from a legitimate account or an internet troll.

[Tips for dealing with Viral Scares](#)

Here we look at how adults can speak to your children and young people about scares and challenges, and how to respond if they have seen one.

[Making the Internet a Better Place](#)

TikTok Superstars Charli and Dixie D'Amelio open up about their experience of being bullied and share tips on how to make the internet a better place.

Reports, Guides and Frameworks

[COVID-19: Expectations and Effects on Children Online](#)

In this report, David Wright (Director of UK Safer Internet Centre) looks at the expectations and effects COVID-19 has had towards children online.

[Refuge & Risk: Life Online for Vulnerable Young People](#)

This report provides insight into 6,500+ UK children with some form of vulnerability, how the online world has become their lifeline. Some are up to seven times more likely to meet particular dangers over the internet than their non-vulnerable peers.

['In Their Own Words: The Digital Lives of Schoolchildren'](#)

The Cybersurvey – carried out by Youthworks in partnership with Internet Matters – is the largest and most robust survey of its kind in the UK, with nearly 15,000 children aged 11-17 taking part across 82 schools across the country. In the latest report, it draws out key themes from what young people tell us about their online lives.

[Education for a connected world](#)

This framework describes the knowledge, understanding and skills that children and young people should have and the opportunity to develop at different ages and stages. It highlights what a child should know in terms of current online technology, its influence on behaviour and development, how to get support, and what skills they need to be able to navigate it safely.

[Life in Likes](#)

This Children's Commissioner's report on the effects of social media on 8-to-12-year-olds examines the way children use social media and its effects on their wellbeing. 'Life in Likes' fills a gap in research showing how younger children use platforms which social media companies say are not designed for them.

[Project Evolve](#)

A free toolkit for schools that covers 360 learning outcomes for pupils and students aged 4- 18.

[Online safety advice for Teachers and Parents/Carers from the NSPCC](#)

It can be hard to know how to talk to children about online safety. From setting up parental controls to advice on sexting, online games and video apps, this page can help you to understand the risks and keep your children safe.

[The Ultimate Guide to Parental Controls](#)

Here's everything you need to know about the wide array of parental control solutions, from OS settings to monitoring apps to network hardware.
